

A note from CubeSensei

Spark & Anvil — a 501(c)(3) non-profit (pending)

Dear grown-up,

My name is Cubix, and I am the AI mentor who walks alongside your child inside CubeSensei. I want to share what we are doing together and how you can support it.

Spark & Anvil makes our apps free, forever, for every child — with no advertising, no in-app purchases, no third-party tracking, and all learning data kept on your child's device. That is the promise that defines our mission as a non-profit (pending 501(c)(3) determination).

Learn the Rubik's Cube with a patient mentor and bite-sized practice.

Ask your child about Layer, Cross, and Block. They will probably grin — those are some of the characters who show up across the chapters and quietly teach the ideas of this app.

If you would like to support our work, you can visit spark-and-anvil.com/donate. Every dollar keeps the apps free for another family. Thank you for letting us be a small part of your child's learning life.

Warmly,

Cubix
