

Meet the CuriosityQuest cast

Recurring characters who teach by example

Notice

Observation / slow looking — name what you SEE before why; most wonder lives in the noticing

Inkling

Intuition / first-guess hunch — your guess is INFORMATION, not a final answer

Ponder

Deepening the question — 'what does that even mean?' is the foundation, never the failure

Linger

Staying with uncertainty — Negative Capability; some good questions take days, the best take years

Revise

Changing your mind — intellectual humility; being wrong is how knowledge MOVES
